

Chief, St/I/R, (Attention ^{25X1A9a} [REDACTED])

13 March 56

Chief, S/CST

Requirements for Austria

S/CST requirements consist largely of broad considerations:

1. General requirements

a. Schematic breakdown of construction industry organization

- (1) Relationship to economy
- (2) Possible Soviet influence

b. Status of technology

- (1) Construction schools and technical courses
- (2) Amount and type of equipment
- (3) Mastery of new or advanced techniques (prefabrication, brick-laying teams, "assembly-line" building)

c. Status of construction labor

- (1) Size of labor force
- (2) Wage breakdown by category
 - (a) Engineer
 - (b) Skilled worker
 - (c) Unskilled worker
- (3) Size and adequacy of women segment of industry
- (4) Discipline, morale, order, and efficiency at work-sites

d. Production of construction materials

- (1) Available natural resources
- (2) Location of cement and brick plants vis-a-vis these resources
- (3) Cement and brick plant capacities and outputs
- (4) Extent of dependence on other countries for materials

SUBJECT: Requirements for Austria

e. New house construction and reconstruction

- (1) Type and quantity
- (2) Persons per dwelling
- (3) Living area per person
- (4) Size of one, two, and three room dwellings in sq. meters
- (5) Defects (if any) or inadequacies of housing

f. Foreign trade in cement

2. Specific requirements

a. Military and "secret" construction activity (airfields, transport facilities, etc.)

- (1) Location
- (2) Type
- (3) Cost data (if available)

b. Major power construction (same categories as a)

c. Major chemical and heavy industrial construction (same categories as a)
